Belts	35
Swimwear & Underwear	36 - 37
Size Guide	39

ETHICS & EXCELLENCE

From polos to chinos, Asquith & Fox's apparel is interwoven with the highest ethical standards. We pay as much attention to responsible resourcing as we do the integrity of our partners. Our products are made in factories that are audited by Amfori Business Social Compliance Initiative (Amfori BSCI) and Sedex Members Ethical Trade Audit (Sedex) or certified by Worldwide Responsible Accredited Production (WRAP).

We also use recycled fabrics in our AQ001 Cationic recycled polyester polo, using post-consumer plastics reducing both waste and the use of natural resources. This is certified to the Global Recycled Standard (GRS).

All our quality materials are finished to the highest standard for optimum decoration. What's more, we continually raise the bar in everything we do, improving our ethical practices and inspiring others to do the same. Ultimately, our aim is to reduce our impact and increase the use of sustainable materials.
