# WE CARE SUSTAINABILITY

They exist, the beautiful **AND** sustainably produced fashion in the field of corporate fashion, promotional and workwear. We make fashion that is socially fair and environmentally friendly.

**Predicting nature and the environment?**

**We say: YES!**

**Can high-quality fashion be fast-moving?**

**We say: No**

The most sustainable clothes are the ones we wear for a long time. That's why we focus on high-quality materials, the finest workmanship and a lot of elegance. The effect? **People LOVE our fashion!** They wear our garments often over many years; neither the material nor the look wear out.

**Is it permissible to produce high quality fashion with the help of harmful chemicals? We say: No.**

Quality fashion and ecologically questionable textile production are incompatible as far as we are concerned. That is why we work with materials that do not harm the environment and the people who produce them.

- we carry the globally recognised **GOTS label** (Global Organic Textile Standard). It stands for strict ecological criteria along the entire production chain "from field to fashion". We manufacture our organic shirts from at least 95 percent purely organically produced natural fibre.

- We have had our products certified with the **Oeko-Tex Standard 100**. On the basis of the latest scientific test procedures and test methods all our products have been tested for more than 100 pollutant residues.

- Our latest products also carry the **GRS label**. The Global Recycling Standard verifies the traceability and composition of the recycled materials we use.

**Does high-quality clothing have to pass through dozens of countries and factories from the field? We say: No**

We have our own production in Bangladesh and short, transparent supply chains. **HRM Textil** tries to combine the best of both worlds - for the best worlds - for the best possible added value under fair conditions for all.
