

The Fairtrade product label for cotton stands for fairly grown and traded raw cotton that is directly traceable through all production steps and is processed separately from non-Fairtrade cotton.

All the cotton for the printwear® articles is grown by Fairtrade producers, certified and traded according to Fairtrade standards. Fairtrade promotes better working and living conditions for cotton producers as well as environmental protection.

More information: info.fairtrade.net/sourcing

OEKO-TEX

Textiles of all kinds that have been tested for harmful substances, from yarn to the finished article, may carry the STANDARD 100 product label. My pure mate has been awarded the STANDARD 100 label.

RECYCLED MATERIAL

A blended fabric of cotton and polyester that was 100% recycled. Recycling old cotton fabrics and plastics saves resources and reduces waste. The result is cotton and polyester fibers that have been combined in a collection for printwear®. Using the bags for as long as possible, is even more environmentally friendly than recycling. The prerequisite is provided by printwear®: Basics in classic colors and good quality.
