

CUFF STYLES & COLLARS

ROUNDED EDGE CUFFS
Adjustable with 2 buttons.

KENT
Perfect for business, this classic collar is named after the Duke of Kent.

SQUARE EDGE CUFFS
Adjustable with 2 buttons.

NEW KENT
Not as wide-flared as the Cutaway or as sharp-cut as the Kent collar, this modern style is stiffened, boned and suitable for embroidery.

MITRED EDGE CUFFS
Adjustable with 2 buttons.

BUTTON DOWN
The modern sporty buttoned-down collar gives a smart appearance without a tie.

COCKTAIL CUFFS
These can be worn either turned or not turned, for a stylish look.

UNDER BUTTON DOWN
This type of collar is ideal for wearing without a tie and with an open collar button.

CUFF LINKS
Many shirts offer the option to wear cuff links.

LADIES
Our Ladies' Shirts feature a classic collar distinguished in style by its length and shape.

Dry clean, any solvent except trichloroethylene

FEATURES & FUNCTIONS

BREATHABLE
A material's breathability is measured in terms of how many grams of water vapour pass through a square meter of fabric over 24 hours (g/m²/24h). The higher the value, the more breathable the product.

WATERPROOF
The water column test indicates how many millimetres of water a fabric can withstand before the pressure causes it to leak. Measurements above 1,500 mm are considered waterproof.

EASY CARE
A special finish ensures that the shirts and blouses are easier and quicker to iron.

SPOT SHIELD™
Fabrics with a SpotShield™ finish are resistant to water and dirt. They even repel most oils without difficulty.

BIONIC-FINISH® ECO
The fluorine- and PFC-free finish prevents water and dirt from sticking to the material.

TEFLON® (DUPONT™)
Teflon® coatings ensure that fabrics are resistant to water, oil and dirt. What's more, this does not have any negative impact on the weight, look, colour or breathability.

LYCRA®
Lycra® is a brand name from the company Invista. It is an extremely stretchy elastane fibre with outstanding rebound properties. These textiles promise an improved fit and comfort to match.

LYCRA® T400®
This elastomultiester (LYCRA® T400®) is a modern double fibre material that can be stretched in all directions and then bounces back to its original shape. The high-quality material adapts to the movements of the wearer and always retains its shape.

AQUAPEL™ BY NANOTEX®
Developed in order to offer reliable protection against wind and water, Aquapel™ is still breathable and at the same time features environmentally friendly fluorine- and PFC-free technology.

DUPONT™ SORONA®
The sustainable insulation with renewable plant-based materials is made with reduced energy consumption and 50% less greenhouse gas emissions.

FLUOR- AND PFC-FREE
Fluorine- and PFC-free materials are more degradable, for the good of both us and the environment.
