Laser cut fabric

PREMIUM QUALITY

THREE-THREAD FABRIC

Our sweat shirts are crafted in a three-thread fabric fabric, creating a premium material, with a soft inner layer for comfort, and a smooth durable outer layer perfect for decoration. It balances warmth, flexibility and a comfortable fit.

LASER CUT FABRIC

All our fabrics are laser cut on a vacuum table for better precision, nicer finish and consistency, and secures the same correct size every time.

RIBS WITH ELASTANE

Elastane in rib and cuffs adds stretch and flexibility, ensuring a firm fit that retains its shape. This blend enhances comfort and mobility, making it ideal for athletic and casual wear.

RINGSPUN COTTON

Ringspun cotton is made by twisting and thinning cotton strands, creating a softer, finer, and more durable fabric. This smooth texture makes it more comfortable than regular cotton, ideal for t-shirts and printing due to its quality and softness.

DOUBLE PRESHRUNK COMPACTED

Our double preshrunk compacted fabric in t-shirts and sweats is tightly woven and compacted, creating a dense, smooth, and durable material that minimizes shrinkage. This technique gives a sleek look and improved wear resistance, perfect for high-quality garments.

DESIGN. CREATE. VISUALIZE.

With our innovative design tool on www.teejays.com, you can now create your own merchandise or private label collection. Featuring a state-of-the-art colour recognition program, this tool ensures a smoother and more accurate design process.

YOUR TEMPLATE

Not only can you visualize your design on your favorite garment, but you can also create a business template featuring your logo to use proactively as a sales tool. Plus, you can create as many templates as you like.

DASHBOARD

As a TEE JAYS authorized dealer, you can log in at www.teejays.com to access your personal dashboard. Here, you can build your own logo bank, making it easier to create new designs with your customers' logos, save existing designs, and modify them as needed. You'll also have access to our content bank, filled with a wealth of inspiring material.
