CUFFS

BARREL CUFF

This is the standard form of shirt cuff. It usually has a single button. With shirts of finer quality there may also be a second button to enable the width of the cuff to be adjusted.

ADJUSTABLE-WIDTH CUFF

This is one of the most popular types of cuff. The edge can be straight, angular or round. The adjustable-width cuff is made of dual-layered fabric and has the advantage that it can be worn with cufflinks.

DOUBLE CUFF

Double cuffs or French cuffs are the most classic and elegant form of cuff. They consist of a double layer of fabric that is folded back to the wrist and closed with cufflinks.
